### Who is the forum for?

The Global Faith Forum is for people of all faiths. We often say we want to reach the world, but do we really understand the world? At the Global Faith Forum, we're moving from a conversation *about* other faiths, to a conversation *with* other faiths. A conversation that allows us to hear from leaders of different religions, different worldviews, and different ideas that shape the way we communicate in the 21st century.
